Click below to visit some websites that will help you to prepare for geography in Year 7

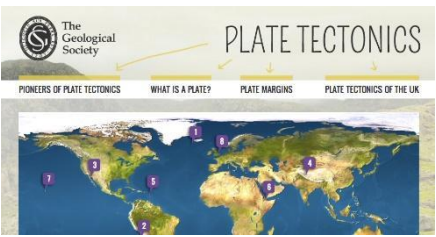

[Ordnance Survey Mapzone](#)

Improve your navigation skills and learn about grid references and GIS while playing some map games on the Ordnance Survey website

[World Geography Games](#)

This website has lots of different geography games and quizzes on a range of topics. You can use it to improve your core geography knowledge of locations and places.

[The Geological Society: Plate Tectonics](#)

The Geological Society has produced this useful interactive resource to explain plate tectonics and where earthquakes and volcanoes occur.
